Green Solutions

Green building and furnishing solutions is not just a hot topic, it is an important benchmark in our society's commitment to protect the environment for future generations. Green building is a positive trend in consumer thinking, to which Premier Copper Products embraces fully by not only providing eco-friendly solutions, but extending our commitment all the way to our eco-friendly packaging.

Premier's copper sinks will endure for generations. Copper is a uniquely durable metal with an endless ability to regenerate its protective patina. This patina is what gives copper its legendary ANTIBACTERIAL and ANTIMICROBIAL properties along with its natural beauty. Having these protective properties will allow consumers to reduce the need for harsh chemicals that are harmful to themselves and the environment.

Copper is one of the most abundant and valued, recyclable materials on the planet. Our sinks are manufactured using 99.9% pure grade A copper wire that has been reclaimed and recycled into copper blanks. Endlessly recyclable, your copper sink will never take up valuable space in a landfill like other stone, concrete, stainless steel or ceramic sinks. All Premier Copper Products can continue to be recycled into new products without limit.

Premier Copper Products uses only packing peanuts made from sustainable harvested vegetable starch as well as recyclable cardboard boxes with inserts made from post consumer products. Making the bulk of our packaging compostable and/or recyclable. You can feel confident knowing that we are truly a REDUCE, REUSE, and RECYCLE company!

Sinks are *IAPMO/cUPC Listed
Bath Tubs are *IAPMO/UPC Listed

Better Living
Through Green Solutions

About Us

Premier Copper Products is a family owned business who offers high quality, affordable products that are individually hand crafted by artisans in our exclusive factory in Mexico. We offer competitive pricing, fast delivery, progressive design features, and environmentally sound copper products & packaging.

Premier Copper Products is a Phoenix, Arizona-based importer and designer of handmade copper products from Mexico. We search out artisans of superior talent and technique to produce a unique line of sinks that are of the highest quality and craftsmanship. Our years of experience in manufacturing assures that the sink you choose will meet rigorous quality control standards in addition to the one-of-a-kind beauty and durability expected of a premium eco-friendly product.

Premier Copper Products maintains a well-rounded on site inventory, which means that our products ship with little or no lead time. We offer a full range of accessories including drains, switch plates, tiles, lighting, bathroom accessories, table tops, custom products, protective wax, and a specially made silicone caulk that is color matched and non-reactive. You will have all the necessary elements to complete your project without the weeks of delay that are common in the industry.

We take great pride in offering a truly affordable and consistent quality product from our eco-friendly packaging to our timeless designs.

Copper Sink Care

Our Products are Especially Easy to Care For

Following the simple steps outlined below, your sink or tub will last a lifetime. To keep clean, simply wash your sink/tub with mild soap, soft sponge, and water. Rinse down your sink as you normally would after each use.

Keep Your Copper Looking Its Best

Apply an occasional thin coat of Premier Bees Wax Surface Protectant. This natural wax will help to maintain the luster of the copper and will promote better water runoff. A simple spray on/wipe off application is recommended once a month. Premier Bees Wax Surface Protectant will help protect the copper surface, will not create a wax buildup, and will dry clear to bring out the true copper color.

Prevent Discoloration

To prevent discoloration or damage to the finish, avoid acidic substances left in contact with the copper surface. Thoroughly

rinse the sink after working with acidic substances. For example, when cutting acidic fruits such as tomatoes, pineapples or other citruses,

rinse with water immediately after so the fruit juices do not linger on the copper. Do not use chemical cleaners or abrasive substances that might remove the patina, and be sure to rinse the sink well should one of these come into contact with the copper. Do not use vinegar to clean the sink, as it is naturally acidic.

Should a Slightly Discolored Spot or Scratch Appear

Do not be discouraged and do not take action. Copper has an endless ability to regenerate the patina surface naturally. Avoid waxing the sink for a few weeks so water and oxygen can help speed up the patina process. With regular use, copper will regain the patina finish and will once again match the surrounding area.

VESSEL SINKS

Make your Bathroom or Powder room a show place with a bold Copper Vessel. No one will be able to deny the true beauty and superior craftsmanship of a Premier Copper Vessel sink. It stands alone in stature and extravagance.

Kitchen Sinks

The Kitchen is your playground, so why not live it green! All our sinks are made from 99.9% recycled copper and are fully recyclable. Give back to nature while complementing your lifestyle. You and your family will love all that copper has to offer by being visually stunning and easy to care for.

Copper Sink Care

Our Products are Especially Easy to Care For

Your sink can last a lifetime. To keep it clean, simply wash your sink/tub with a mild soap, soft sponge, and water. Rinse down your sink as you normally would after each use. For more detailed information, please see page 9.

Apron Sinks

Frame your kitchen with a Copper Apron sink. Showcase the dramatic look of handcrafted copper as the centerpiece of your kitchen. Picture the elegance and craftsmanship welcoming you and your guests into the kitchen like a fine piece of art.

Custom Orders

Having trouble finding the perfect item to fit an existing space? Watch your vision come to life by designing your very own, one-of-a-kind handmade copper creation. Our talented artisans have the ability to create much more than what is shown in this catalog.

While we specialize in copper products for the home, we also offer products for your business. We can create unique sinks, range hoods, bathtubs, backsplashes, signage, tables, shelving, and much more. We can also create speed rails/racks, drip trays, beer and wine flights, kegerator door panels, accessories and more for your restaurant or bar. The possibilities are truly endless!

Talk to your dealer for more information on how to get started with your new custom design. Lead time will apply on all custom orders.
