Bath as Art

Art is the tangible expression of imagination and skill combined to create an experience and evoke a response. This is the Boutique Collection from MTI. The embodiment of MTI's commitment to high design, sensuous beauty and personal wellness.

These are purposefully designed vessels that are beautiful in their form and effective in their function. Works of art that saturate the senses and create a unique experience with the luxurious, smooth touch of molded stone. Sculptured forms handcrafted in the USA by the skilled artisans of MTI.

Feel the difference. Experience the luxury. Indulge yourself with a work of art from the Boutique Collection.

Each product in the Boutique Collection is a piece of art, a unique sculpture, that is handcrafted and hand-finished in luxurious SculptureStone® by a talented team of artisans.

Dedication and pride of workmanship drive our craftsmen to produce your choice of a velvety smooth soft matte or hand-polished deep gloss finish.

THE BOUTIQUE COLLECTION

MTI’s Boutique Collection offers you extraordinary products of inspired, award-winning designs. Works of art that will transform your bathroom into nothing less than the extraordinary.

Tubs, sinks, counter-sinks, vanity sinks, shower bases and versatile accessories and options. All created in MTI's proprietary SculptureStone®: 100% solid, mostly organic, beautiful and easy to maintain.

For the art of the Boutique Collection also lies in what is not visible.

SCULPTURESTONE

- ♦ MTI Boutique Collection products are manufactured using a proprietary, luxurious SculptureStone material, also referred to as Engineered Solid Stone.
- ♦ Approximately 70% of the material is organic: natural stone that is comprised of various minerals.
- ♦ This is refined into a powder and combined with high-performance resins that are binding agents.
- ♦ The material is liquefied, poured into a mold, cured and hand-finished.
- ♦ The result is a solid work of art: molded stone. Smooth, 100% solid, luxurious.
- ♦ No top coating, layers or hollow areas.
- ♦ This material is non-porous, stain-, mold- and mildew-resistant, making cleaning and maintenance easy.

HYDROTHERAPIES FOR WELLNESS

Soaking Bath

The most elemental form of hydrotherapy is the soaking bath, where heat and water’s natural buoyancy foster deep relaxation. All MTI soaker tubs are ergonomically designed for maximum comfort, and our SculptureStone helps keep bath water warm longer. And this means a longer soak for you.

Air Bath

The blissful combination of water, heat and air movement creates an incomparable effect that is as therapeutic as it is relaxing. The movement of millions of tiny air bubbles contacting the skin activates the lymphatic system, increases blood flow, stimulates endorphins and relieves sore muscles and other painful ailments. Air flow can be adjusted from soft to stimulating.

JULIET ♦ 2 models available 67" and 72" in length

DESIGN EXCELLENCE

MTI has received more than 160 national and international awards for design excellence and product innovation. For Russell Adams, President and Chief Design Officer, the common thread is “design with purpose”. More than creating products that are high in design aesthetics, the products must contribute to the lives of those who are pursuing holistic wellness.

The following pages contain a good sampling of MTI Boutique Collection products. Go to **[mtibaths.com](https://www.mtibaths.com)** for additional products, detailed specifications and pricing.

The Intarcia tub, as well as the Continuum and Intarcia sinks, were designed by internationally renowned kitchen and bath designer Matthew Quinn. The Intarcia tub is available with the pedestal base shown above.

Matthew Quinn is one of the foremost designers in the kitchen and bath industry and Principal of Design Galleria Kitchen and Bath Studio and the Matthew Quinn Collection. "My design philosophy is that innovative designs can be elegantly simple yet always provocative."

Boutique Collection sinks are no less than stunning vessels. Like our tubs, each is a work of art. Designed and handcrafted with exquisite detailing and available in a large variety of sizes and shapes that either mimic or complement Boutique tubs. All created in SculptureStone. Boutique bathroom sinks include vessel-style, semi-recessed, undermount and wall-mount. See them all at [mtibaths.com](https://www.mtibaths.com).

Counter-Sinks

MTI Counter-Sinks seamlessly integrate the sink bowl with the counter top and complement a variety of design aesthetics. And they can be highly personalized in counter length, depth and height; bowl style and position(s); wall-mount or vanity-mount installations. They are easy to clean and compatible with most manufacturers' vanities. All created in SculptureStone.

Accessible from any counter-sink product page on mtibaths.com, the MTI Configurator will walk you through specifying your personalized counter-sink.

Vanity Sinks

MTI Vanity Sinks are simply elegant, and the possibilities for personalization are many. There are different lengths and depths from which to choose, and depending on the vanity length, one or two sink bowls may be selected from a variety of sizes and shapes. Constructed in SculptureStone with waterfall-style sides or parsons-style legs as shown below.

Shower Bases

MTI's Boutique Collection shower bases are constructed of the same SculptureStone material as the tubs and sinks. These low-profile shower bases are available in five lengths ranging from 48" to 72". You can also create a custom shower base. All models feature a concealed drain and a low-profile, multiple-threshold design for versatile installation, great looks and easy entrance. They are slip-resistant and easy to maintain.

Color!

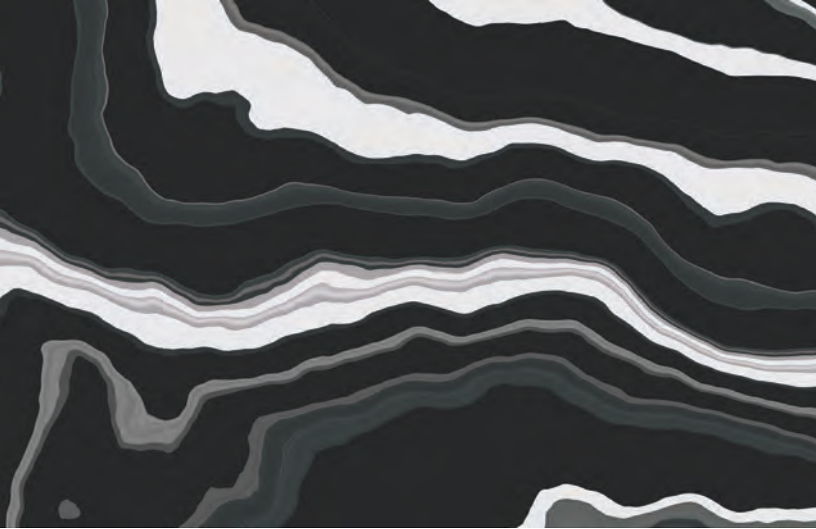

Let your personality show through with a splash of color in the bathroom. The Boutique Collection allows you to choose from a variety of exterior colors to accent or integrate with your bathroom decor. Available on many tubs, vessel and semi-recessed sinks in matte or gloss finish. Go to **mtibaths.com** for details.
