Our Process

The unique process developed to manufacture all of our basins, countersinks and countertops involves two layers of glass laminated together. This delivers added strength, safety and durability. These products are specified for and installed in Hotels and Commercial projects worldwide as testimony to their reliability.

Standard Basin

Although the name Standard is used to describe this style, its simple beauty is only ordinary in the manner in which it is installed. The Standard Basin may be installed as an Under-mount or Drop-in. This versatile basin is offered in Round, Oval and Rectangular shapes, each with a choice of large and small sizes, with or without an overflow.

Standard Basin Overview

Shapes and Sizes

Standard Basins are available in round, oval and rectangular shapes. We offer three sizes of rectangular basins.

Round
17.5 in. Diameter

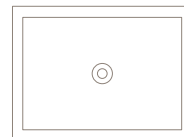

Oval
16.25 x 20.75 in.

Mini Rectangular
12.25 x 15.25 in.

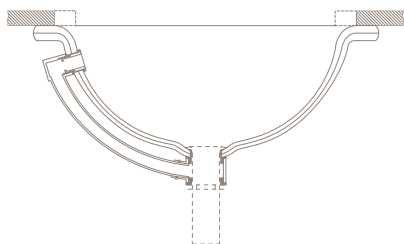

Small Rectangular
17 x 22 in.

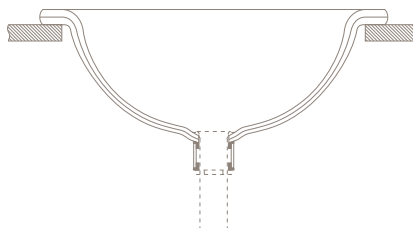

Large Rectangular
18 x 24 in.

Installation Options

Standard Basins can be installed as an undermount or drop-in basin, and are available with or without overflow.

Rimless Undermount Basin

The Rimless Undermount Basin was developed for a more compact undermount installation, commonly used on a yacht, or aircraft. This makes it a perfect choice for any compact installation. This basin is offered in Round and Oval shapes, each with a choice of large and small sizes, with or without an overflow.

Freestanding Basin

Transform routine to ritual. The Freestanding basin takes a functional item to the height of romance. Offered in Round, Oval and Rectangular shapes, each with a choice of large and small sizes, Freestanding basins stand six inches (nominal) above the counter surface. ADA versions of all four sizes are manufactured to a four inch height. Special allowances should be made for access to the faucet controls and for the reach of the spout on this unusual mount.

CounterSink Options

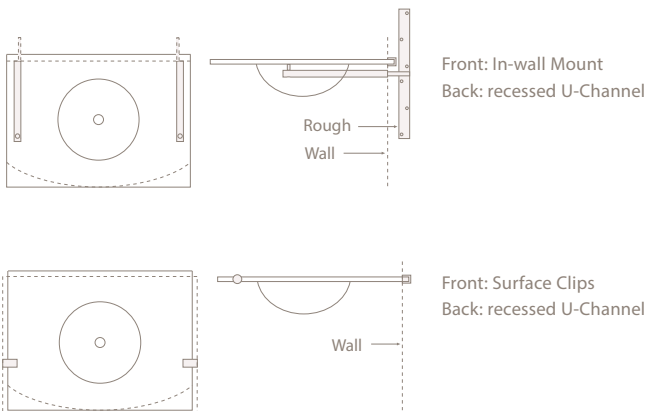

The manufacturing process of this strong, laminated, functional product creates a surface of perfect clarity. Install a Vitraform Countersink using one of our minimal mounting systems for dramatic impact, or choose one that is frosted and engraved to be supported by an antique treasure.

Installation of a transparent material can be challenging. We offer a line of carefully designed mounting components and drain hardware to solve a range of design requirements. Detailed instructions are included to help plan and ensure a flawless installation. Individually constructed shipping crates protect each Countersink until they are ready to be installed.

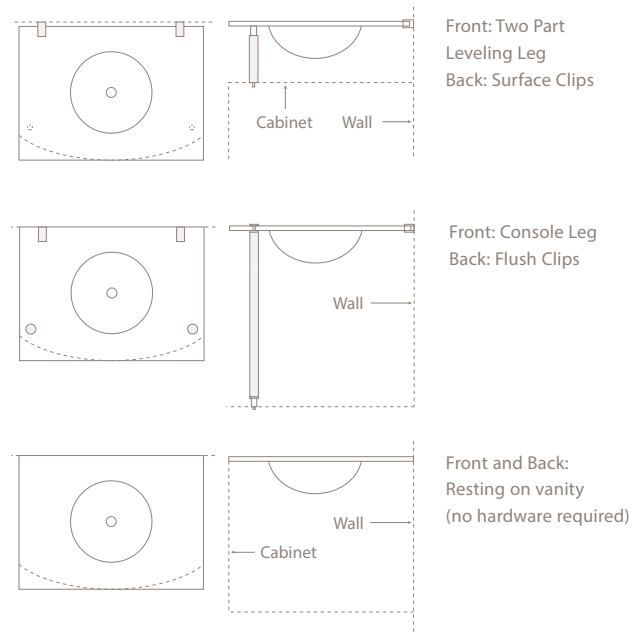

Automated production equipment allows an almost infinite range of sizes and shapes within the standard product line. The illustrations below and opposite represent the range of typical specifications for this series. Drawings are provided by the factory to coordinate the Countersinks with three average wall spout projections. We show and price Counter widths in six inch increments, but fabricate the finished product to match exact field dimensions.

Mounting Hardware

Choose any combination of our unique mounting hardware options to showcase your Countersink. These are a sampling of the many mounting options available.

▲ Rectangular Countersink / Grey Pearl / Installation: Surface Clips and Glass Legs / Shown with Vitraform Round Mirror

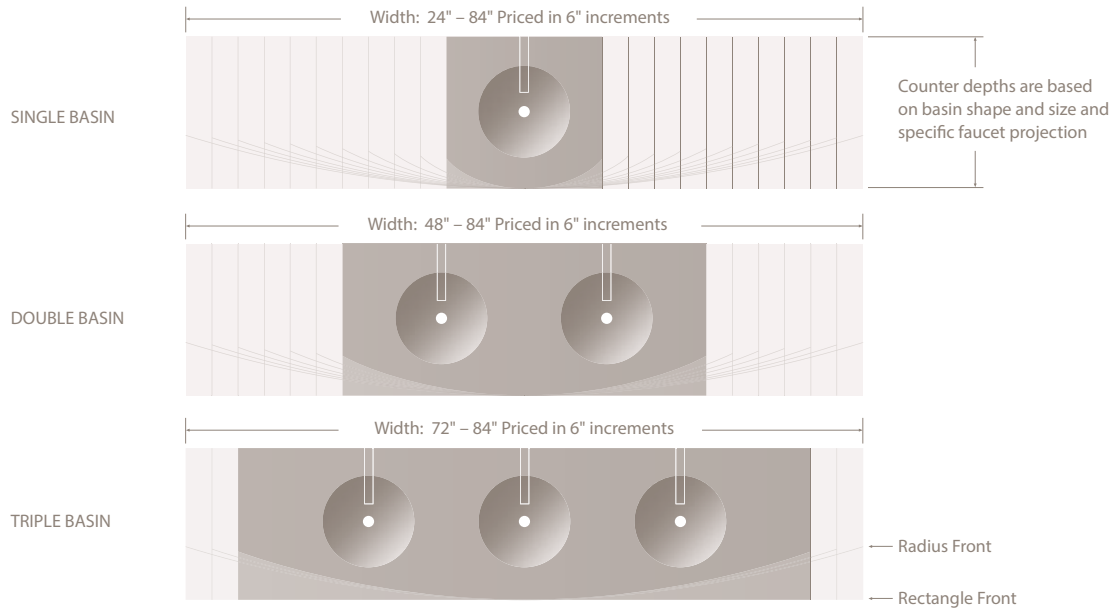

Custom Options

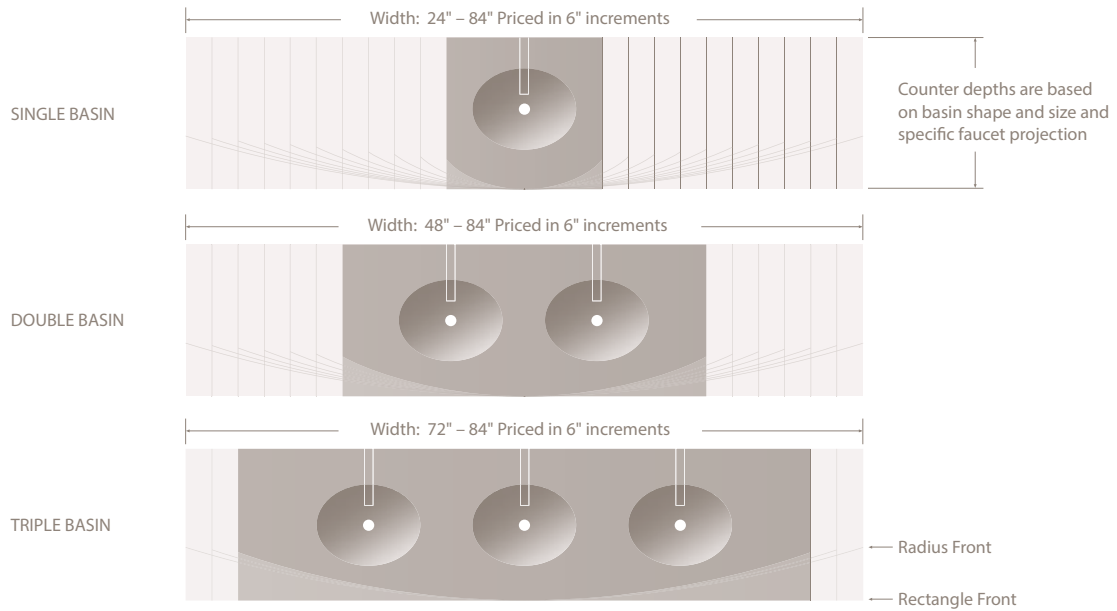

With more than 244 standard options, we still pride ourselves on our custom work. Allow time to coordinate with the factory for shop drawings and special installation considerations. Expect to submit hard templates for unusual shapes. Off center basins, holes for deck mounted faucets and other custom details are easily incorporated into the process.

Console Overview

Shapes and Sizes

Available with round, oval or rectangular basin, the Console is offered with a choice of radius or rectangular shape counter and shelf in widths from 24 to 60 inches.

Installation

Consoles are mounted directly to the wall and are available with or without an overflow.

Colors and Finishes

Available in all glass colors and finishes. See pages 27-30 for color and finish options. Contact factory for gilded finishes and engraved designs.

15

▲ Console with Oval Basin / Starphire White Lami / Custom counter and shelf shape / Installation: Flush Clips with Console Legs and Towel Bar / Vitraform Round Mirror

Console

Using the same manufacturing process as our sinks and countersinks, consoles blend with artistry of the Vitraform Countersink with the convenience and practicality of having a complete design. Choose from elegant wall mounted console for the flexibility of a freestanding console.

▼ Console with Oval Basin / Starphire White Lami / Custom counter and shelf shape / Installation: Flush Clips at back / Console Legs and Towel Bar

▲ Washstand with Oval Basin / Black Polished /
Shown with European Siphon

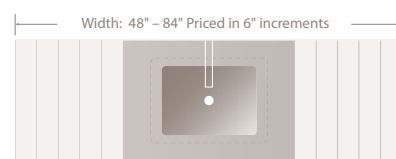

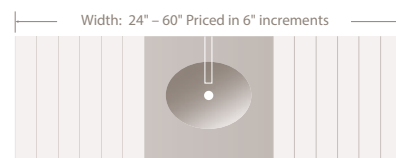

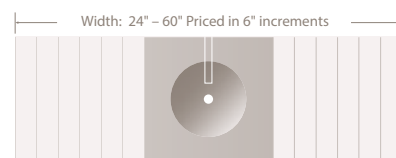

Washstand

The perfect balance of form and function, the washstand utilizes an all-glass construction to create a truly one of kind console. Integrating a Vitraform Countersink with two cascading glass sides and a matching glass shelf offers the flexibility of a traditional console with the beauty and art only offered by Vitraform.

Washstand Overview

Shapes and Sizes

The Washstand is available with single or double basins in round, oval or rectangular shapes, and in widths from 24 to 60 inches.

Installation

The Washstand is mounted against a wall using adhesive at the back, and is available with or without overflow.

Colors and Finishes

Available in all glass colors and finishes. See pages 27-30 for color and finish options. Contact factory for gilded finishes and engraved designs.

CounterTop

Although we show our Laminated Countertops with our own Freestanding basins, we also offer these surfaces to support basins by other manufacturers. These durable laminated glass shelves are drilled to receive Freestanding or Drop-in sinks. We offer all of the color, finish and mounting options available in our line to contrast or match the bowl of your choice. The Vitraform Countertop allows the basin of your choice to capture center stage.

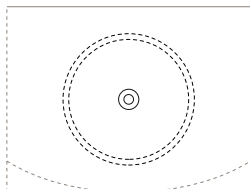

CounterTop Overview

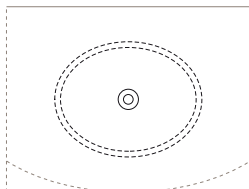

Shapes and Sizes

Countertops are available for round or oval basins, along with rectangular, radius or custom front profile.

Installation: GN2 Vanity in Walnut

Vanity

Crafted like fine furniture but engineered for the bath, these vanities are designed to offer three options for mounting Vitraform glass products. Standard or custom veneer choices are selected and laid up by hand for each individual cabinet. Construction materials include MDF substrate for stability and catalyzed lacquer finishes for durability. As in most Vitraform products, all components are selected and ordered separately to allow for a unique installation.

Mounting Systems

We offer a series of specially designed metal fittings to allow for the installation of both Vitraform Countersinks and Countertops. Installation instructions and hardware drawings suggest options for using and combining the interchangeable components in these simple, elegant

systems. Available in your choice of eight standard metal finishes, Vitraform hardware components furnish a unique blend of aesthetic beauty and engineering. A sample of the many mounting options available are shown in the drawings below.

Vitraform Hardware

The nature of glass demands new consideration for the design of fittings to interact with Vitraform basins and counters. Visibility, structural support requirements and thermal properties are all taken into account. We design and manufacture these items to take the products to a higher functional and aesthetic level while making installation easier. Vitraform drains, Mounting Systems and Overflow hardware, most of which are ADA compliant, are all examples of our dedication to offering refined support hardware for our products.

Waste and Overflow

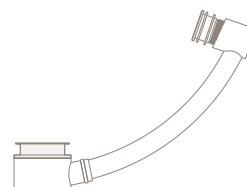

Beautifully finished P Traps or European Siphons are paired with one of the drain options to complete the sets. Overflow hardware is available on Standard Basins, Rimless Undermount Basins and Countersinks. All styles of Vitraform products are available to meet ADA guidelines. Consult local plumbing codes to make an appropriate selection.

Drain Sets

The installation of a transparent bowl and exposed drain calls for something more than the mundane. We have assembled three drain options to offer functional choices for jewelry-like hardware. We customize our drains by adding special gaskets and fittings made to install with our sinks. Complete rough-in instructions are included, insuring an installation to exhibit with pride.

Glass Color

We begin with a raw material that is held to the highest industry standards for clarity and purity. The color is inherent to the material. Nothing is added, coated or intended to change the characteristics of this perfect substance. Combined with the simplicity of form, our 12 colors, available in 7 finishes, celebrate the beauty of the material and its interaction with light.

Glass Finish

The magic of glass is light. How that light interacts with the sink is dependent upon the finish applied to the glass or the color laminate used. Finishes such as frosted, white lami, satin etched, and chalk excel when lit from below. Mirror and pearl incorporate the beauty of silver to reflect light from the top. Each finish exhibits its own unique personality and depth.

Perla

Engraved patterns and Perla are available on select glass colors and finishes. Visit our website or contact factory for details. *1960 pattern no longer available on white as shown. Perla shown in Black Polished.

Perla consists of varying sizes of Crystal glass jewels adhered to the outside of the basin.

Engraving

Meticulously and individually hand cut by a master engraver, these patterns are offered on all Freestanding basins in all colors, and Undermount Basins in all colors except Black or Cobalt. Countersinks and Countertops up to 36" (915mm) may also be engraved. Custom designs and variations on our 22 standard patterns are welcome. These dazzling embellished gems are clearly centerpieces for the bath.

Matte is created with an even dense application of gold leaf.
Lustre adds a secondary organic layer of shiny flecks to the background of the Matte finish.

▼ Freestanding Large Round Basin / Starphire White Lami /
Fragment Gilding in Rose Gold

Gilding

Perhaps the only material to rival glass in history is gold. Hand applied by a local gilder, gold leaf can add character, depth, and luxury to any sink or top. Like great masterpieces from history, the white or rose gold leaf is protected behind a sheet of glass as it is safely locked away between the two layers of glass. Glass color and finish are limited by gilding style.
